

## ***My bequest story...***

*My name is Min and I was a volunteer at Prahran Mission for many years and enjoyed every day I was there. If I had not moved from the area to the other side of town, I would probably still be at the Mission.*

*Over the years I saw many changes for the better. For these changes to happen, it takes time and money, so I have left a legacy in my Will and I urge others to do the same. This way you know you have helped the future of the mission to continue with its good works for years to come.*

*Do give this request some serious thought, knowing that your bequest will help this wonderful Mission to continue with good works in the future years ahead.*

*Wishing everyone good health and happiness and many thanks for your support.*

*With kind thoughts  
Min Martin*
